WORKPLACE HEALTH AND SAFETY POLICY

RATIONALE

Whilst a workplace, “ the SCHOOL”, under responsible management may provide a reasonable level of protection, situations affecting personal safety could still occur. The Board of Trustees, is responsible for health and safety and is required under legislation, to have policies and procedures in place to provide a safe environment for STAFF, STUDENTS, PARENTS, VISITORS and VOLUNTEERS

GUIDELINES

Every term staff will be provided with a Hazards Identification Form that must be completed and returned to the School Office. All hazards, or potential hazards, must be identified in classrooms and around other areas of the School Site.

These hazards must be isolated, minimized or eliminated.

The Henderson Intermediate School Board of Trustees requires that all practicable steps to ensure the safety of STAFF and STUDENTS while at school; and in particular shall take all practicable steps to:

1. Develop procedures for dealing with emergencies that may arise.
2. Provide education and awareness training programmes.
3. Use physical security measures such as cameras, alarm and lighting systems can be considered as a further means of protecting STAFF and STUDENTS.
4. Be alert to any suspicious activity, and promptly report to management any person loitering outside the building or in an internal public area.
5. That bags and personal possessions should not be left in any area where a thief could have access. Lockable cupboards are provided in every classroom for STAFF and STUDENTS to use.

6. When STAFF are present at school outside of regular hours, to plan to have at least two adults/staff members working together if possible.
7. After hours STAFF must only open the door once they have confirmed that the person is legitimately on the premises.

If STAFF must work alone, measures to enhance safety include:

- Ensuring the buildings / classrooms can be adequately secured from the inside.
- Keeping doors locked to prevent causal entry, if appropriate.
- Staff should have a cell phone so they can access emergency services.
- No staff member will carry cash unaccompanied, this includes School Banking.

If STAFF arrive early:

- The first person to arrive at School should be alert to any signs of forced entry
- Where any signs are observed the premises should not be entered, as an intruder could be present. The Police or a security company should be called, and any other staff warned when they arrive.

If STAFF finish late:

- Park as near to your building as possible in an area that that is well lit at night.
- Let someone know you will be working late.
- Check that you are secure inside the building and that no doors or windows have been left open or unlocked.
- When leaving the building check the immediate area outside for any people loitering, before opening the door.
- Use the best lit route to your car and have someone walk with you if possible.

STAFF away from the School Site during the school day.

In some circumstances staff may be required to go offsite during the school day. The Board requires that any staff member leaving the School site for any reason is required to sign out and sign back in at the Office.

Teachers may be required to attend off site meetings in homes or isolated situations. This is only used in extreme situations. Potential risk to teacher's safety must be minimized by....

- a) Taking another adult with you.
- b) When visiting a house or other place, be guided by your instincts. If the person opening the door has a manner which makes you feel uneasy or uncomfortable, don't go inside. Make an excuse and leave immediately.
- c) If you enter a place and later start to feel uncomfortable with the person you are talking to, leave as soon as possible. Be aware of potential escape routes.

Behaviours which can reduce the risk of conflict includes: not staring, staying calm, avoiding arguing or provoking, not making sudden movements, not tackling the intruder, complying with demands in order for the intruder to leave as soon as possible without harming you.
